

## What is the Family Empowerment Scholarship?

You may know that the Florida Legislature recently enacted another scholarship program that would help kids who are currently on the Florida's Tax-Credit Scholarship program waitlist and other kids who need scholarships. This new program alleviates the waitlist by providing more scholarships and expanding eligibility to meet demand.

## Why are we contacting you?

We are currently looking for families who could benefit from the new scholarship program because we expect the program to be challenged in court by opponents of educational choice. To protect the program, we need to show the court all the everyday families who stand to benefit from it.

## What can I do about it?

The Institute for Justice is a nonprofit public interest law firm that has been fighting for educational choice for the last 30 years, including in Florida. We represent our clients free-of-charge in civil rights cases. If you believe you are eligible for this scholarship, we ask that you contact us so that we can help save this vital program and preserve educational choice in the Sunshine State.
