**Section 1. Purpose.** The Act’s purpose is to encourage and protect the sustainable cultivation of fresh produce at all levels of production, including on residential property for personal consumption or non-commercial sharing.

**Section 2. Vegetable garden defined.** As used in this Act, the term “vegetable garden” means any plot of ground or elevated soil bed on residential property where vegetables, herbs, fruits, flowers, pollinator plants, leafy greens, or other edible plants are cultivated.

**Section 3. Right to cultivate vegetable gardens.** Notwithstanding any other law, any person may cultivate vegetable gardens on their own property, or on the private property of another with the permission of the owner, in any county, municipality, or other political subdivision of this state.

**Section 4.
